## COMPARISON OF CAT SKI OPERATIONS IN CANADA FOR LOCATION, PACKAGE TYPE, ABILITY LEVEL, SIZE, SNOWFALL, VERTICAL & COST

\* reliable information not available or not applicable

Multi-day packages include accommodation unless otherwise stated.

The prices listed above are for the 2011-12 season and serve as a guide to compare cat skiing costs. Check each website for up to date costs.

Costs don't include taxes unless specified with #

If more than one accommodation option is available, the price for the less expensive option is provided

The prices for Chatter Creek do not include the costs for the heli transport

The single day rates provided are not standby rates; the exception to this are operations that only offer single day standby e.g. Retallack, Island Lake, Powder Cowboy Peak and low season definitions vary for each operation.

Many operations have multi-day packages that commence the night before the first ski day and finish on the last day of skiing so that the package has an equal no. of days & nights. There are exceptions to this where for example a package is 5 days and 6 nights - this has not been factored into the cost per day.

The inclusions in each cat ski package differs between the operations. Generally multi-day packages include accommodation, meals, and safety equipment. Not all cat ski operations include ski and board rental.
